

Communicating in slack

Each Ambassador has been sent via email an invitation to a Slack channel that is specific to your market center. Kares 4 Kids will be using Slack to share important information throughout the year. In order to utilize this easy collaborative tool, please do the following:

1. **Download the Slack app for your phone and/or desktop.** For your phone, search "Slack" in the app store. For desktop, go to Slack.com and use the login you created when you accepted the Slack invitation. On the top menu bar, click on "Product", then choose "Download Slack".
2. Communicate with your Kares 4 Kids team within your market center Slack channel at any time! Chatting in Slack is quick and intuitive. It's like a group chat, but better!

Here's an example of how Slack looks on your desktop or phone!
