"We are changing one child's life at a time through books!"

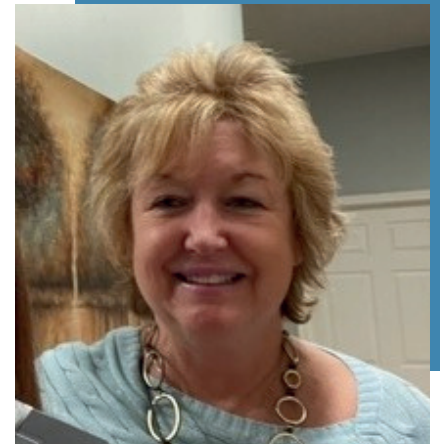

"Growing up I had a love/hate relationship with reading. Since having children of my own, I cannot imagine not having access to books for my children. That is why I love the book donations that our office gives. It allows us to reach children who would not otherwise have access to books. These donations not only allow our kids access to amazing books but allows our agents to think outside the box of where they should go. **Books 4 Kids has created community awareness for the needs of children in our area.** I am so thankful for Kares 4 Kids and all the amazing things our agents are doing. We are changing one child's life at a time through books.

"Teens can get something they could not afford otherwise."

"Tis the season to give and I feel the the Kares 4 Kids \$75 gift cards are an amazing way to show teenagers we care about them and want them to feel special. Young children are easily satisfied with the presents we supply through charities like The Place's "Holiday House", where families bring their kids to pick out something special for themselves. However, teenagers are harder to buy for and providing them with these monetary gift cards during the holidays gives them an opportunity to buy something special for themselves that they could not afford otherwise."

- Mary Beth Cook, South Forsyth Agent and Kares 4 Kids Sponsor

Literacy is a bigger problem than ever - Books 4 Kids will help!

To support the growing need to encourage literacy among young children, **5,738 brand new books will be donated to kids in your community this fall!**
